- Rebates are not to exceed the equipment cost.
- New equipment must be purchased, installed, and operating (generating kWhs) in 2025.
- Active Jackson Electric Cooperative memberships only.
- Installed new equipment must be on Jackson Electric Cooperative's lines.
- New equipment is subject to verification by a Jackson Electric representative.
- Rebates are in place through December 31, 2025, or until funds are depleted.
- Availability of rebates is subject to change without notice.
- Required documentation must be submitted within 60 days of invoice date or no later than December 31, 2025, whichever comes first.
- Rebate amounts less than \$500 will be applied as a credit to your billing statement.
- Application may be rejected if all required documentation is not completed and submitted.

## Appliances

All appliances must be Energy Star rated. To receive your rebate, complete and submit to our office the rebate form, along with a copy of your receipt or invoice of each item purchased, and the Energy Star label.

- Clothes washer: \$150
- Clothes dryer (must be electric): \$150
- Dishwasher: \$150
- Dehumidifier: \$50
- Refrigerator (min. of 10 cubic feet): \$150
- Freezer (min. of 10 cubic feet): \$150
- Inductive range: \$150

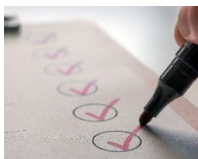

## Heat Pumps

To receive your rebate, complete and submit to our office the rebate form, a copy of your receipt or paid invoice, the AHRI certificate, and documentation showing the equipment is installed and operating on Jackson Electric Cooperative's service lines.

- Air source / mini split heat pump: \$500/ton (SEER2 14.3+, HSPF 7.5+ OR SEER 15+, HSPF 8.8+)
- Geothermal heat pump: \$500/ton (New units not allowed on Jackson Electric's load management program)
- Variable speed blower motor: \$35/unit (New furnace only. Efficiency (kWh/yr (Eae)  $\leq$  670 or variable speed as listed on the AHRI certificate)

## Tune Up for Heat Pumps and Central AC

Rebate is to help offset the cost of tune-ups only on your heat pump or central air conditioning unit operating on Jackson Electric's service lines. Gas furnaces and window/other air conditioning units do not qualify.

To receive a rebate, complete the rebate form. You must include a copy of your receipt or invoice showing a tune-up was completed. Contractor must complete the Contractor Information section of the form. Rebate not to exceed the tune-up cost, up to \$75.

---

## Water Heaters

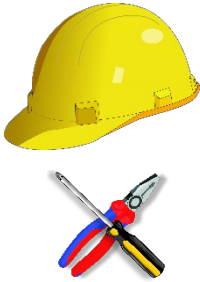

Electric water heater: Load management receiver must be installed to receive rebate. Must meet the Uniform Energy Factor .88+ to qualify for the rebate.

Heat pump water heater: Integrated (all-in-one) units must meet the Uniform Energy Factor 2.00+. Cannot be installed on the dual fuel meter or connected to load management program.

- 100+ gallon water heater: \$300
- 75-99 gallon water heater: \$300
- Heat pump water heater (integrated (all-in-one unit), Uniform Energy Factor 2.00 or greater): \$300

## Ag, Commercial, & Industrial

Agricultural, commercial and industrial members who install certain types of energy saving equipment and/or incorporate energy efficiency measures may qualify for custom rebates. Qualifications do apply. Contact our office for more information.

- Exhaust fan: \$1/inch
- Circulation fan: \$1/inch
- Dairy plate cooler/well water pre-cooler: \$500/unit
- Dairy refrigeration heat recovery w/ electric backup: \$300/unit (Used with controlled electric water heater)
- Low/zero energy livestock waterer: \$50/unit (500 watts or less, insulated tank)
- Scroll refrigerant compressor: \$30/HP
- Variable frequency drive: \$30/HP

---

## Electric Vehicle Charger

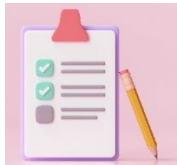

To receive this rebate, you must purchase a smart electric vehicle charging station with integrated metering from Jackson Electric. Must be installed on Jackson Electric's service lines. Charger uses cellular communications. Please contact our office for charger purchase price.

Smart Electric Vehicle Charging Station: \$800

- \$5 per month service fee
- Requires additional meter
- Member responsible for any electrical work and installation fees

---

## Audit Recommended Improvements

- Home or farm improved must be on Jackson Electric service lines.
- Energy efficiency improvements must be recommendations from an audit arranged by Jackson Electric Cooperative or a cooperative approved partner.
- Rebate not to exceed the cost of energy efficiency improvements up to \$500. Cost can include material and professional labor. The cost of the audit cannot be included.
- Audit must be a comprehensive audit including a written report.
- Audit report must indicate the improvement will result in electrical or delivered fossil fuels reduction or efficiency.
- If another rebate is available, the audit recommended improvement will qualify for only that rebate.
- Each member account qualifies for only one of this incentive every five years, regardless of the number of audits performed and regardless of the number of measures implemented.
