

Your Touchstone Energy® Cooperative 

**ELIGIBILITY CRITERIA**

- ❖ New equipment must be purchased, installed, and operating (generating kWhs) in 2022 on Jackson Electric Cooperative's lines. Active membership only.
  - ❖ Rebates are in place through December 31, 2022, or until funds are depleted. **Availability of rebates and incentives is subject to change without notice.**
  - ❖ Rebate not to exceed the equipment cost.
  - ❖ Rebate not allowed for a measure and a component of that measure. For example, if an air source heat pump has a variable speed blower motor, the air source heat pump qualifies for a rebate but not the variable speed blower motor.
  - ❖ Submit the required documentation listed below within **60 days of invoice date**. If submitted after December 31, 2022, equipment will be considered for the 2023 incentive if offered. Members are encouraged to submit as soon as possible to ensure rebate.
    - ✓ Completed rebate form;
    - ✓ A copy of your receipt or invoice for each item purchased with the purchase price and date of purchase highlighted; and
    - ✓ Documentation showing the equipment has been installed
  - ❖ All heat pump incentive requests in excess of 6 tons at one meter location will be evaluated individually on a custom basis instead of receiving the prescriptive incentive. More than 6 tons will be paid at Dairyland Power's rebate amount.
  - ❖ Rebate amounts less than \$250 will be applied as a credit to your billing statement.
- Submit required documentation to: Jackson Electric Cooperative, N6868 County Road F, Black River Falls, WI 54615 or email to [info@jackelec.com](mailto:info@jackelec.com)**
